

TRAINING AS BRIDGE INSPECTORS

“OPPUTUNITIES FOR ALL LEVELS OF ENGINEERS”

The much-needed training in a high-need field with tremendous employment opportunities is now being taken up by CIDC.

With rapid expansion in the Roads segment & the increasing incidents of collapses, more than 2 lakh jobs are likely to open up over the next few years for Bridge Inspectors.

At present, Government Departmental engineers who undertake this work, have their hands full with many other tasks. They will need the support of young people trained for huge task of Bridge Inspections required for ensuring safety of our citizens.

CIDC is seeking to build the pools of Cadres required at all levels in the field. A start is being made with this entry-level course.

Course Director is Shri NK Sinha, one of the topmost expert engineers in the field as Former Director General (Roads) in Government of India.
