## About CIDC Academy of Construction Excellence (CACE) Program

CACE is aimed at meeting the training and education needs of Construction Industry for a fast revival from the effects of COVID pandemic and linked lockdown CACE will be meeting the required aim through different modes of training and human resource development activities. CACE-CPD series - I is the first program of CACE.

### Program Details

Programs in chosen streams shall be delivered to working individuals and organization nominees, sector entrants, and academia to create a long-time capacity creation in the industry. Some of these streams have been deliberated in ICW 2020 and as observed from the deliberations, find sufficient demand with the industry constituents.

The skill set developed from these training programs shall be evaluated through the standard CIDC testing and certification processes and the successful candidates would be certified for the specific training with relevant professional development credit points jointly with the Engineering Council of India to enable learners in developing their professional profile and grow in the profession.

Learners for the program shall be invited from the industry, sector entrant and aspirants, students and faculty members of aligned institutions.

### Details of CACE-CPD Series-1

Based on the requirements, five different topics have been identified in the current phase of program. Each topic is standalone and by participating it, the participants will get educated in the chosen proficiency.
