

Visit of the Brazilian Business Delegation to CIDC, ICC & IndSTT Headquarters on 17th October 2025.

A high-level Brazilian business delegation visited the Headquarters of the (Construction Industry Development Council) CIDC, (International Council of Consultants) ICC & (Indian Society for Trenchless Technology) IndSTT in a significant move to strengthen India–Brazil collaboration in the domains of construction, infrastructure development, and technology exchange.

The meeting witnessed fruitful deliberations on areas of mutual synergy, focusing on innovation, sustainable practices, and institutional partnerships. The delegates, representing Brazil's premier industry bodies, investment promotion agencies, and leading enterprises, appreciated CIDC's pivotal role in shaping India's construction sector through capacity building, quality assurance frameworks, and policy advocacy.

CIDC, ICC & IndSTT showcased India's institutional strength and technical prowess, including the contributions of its registered vendors, consultants, and member organizations that collectively form the backbone of India's infrastructure ecosystem. Key highlights of the discussions included:

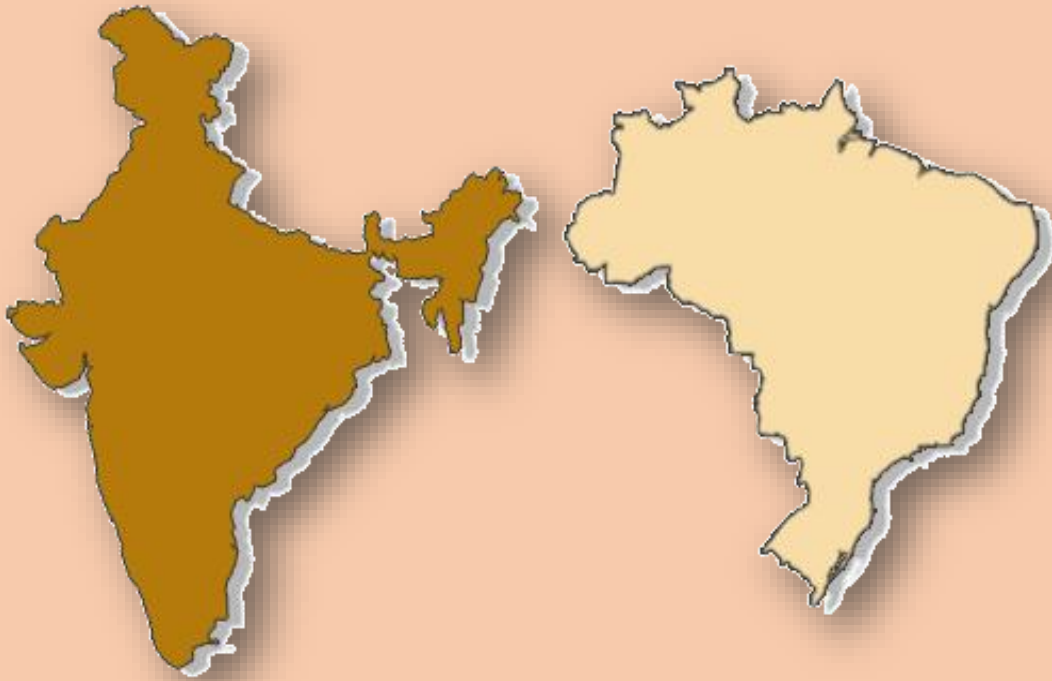

- Exchange of emerging construction technologies, particularly those suited for tropical and diverse terrains.
- Introduction of trenchless and sub-surface construction technologies, where CIDC and its member organization (IndSTT) possess advanced expertise to deliver efficient, low-disruption, and sustainable infrastructure solutions.
- Deployment of expert consultants from the International Council of Consultants (ICC) under CIDC's umbrella to support planning, feasibility, and execution of complex infrastructure projects in Brazil.
- Knowledge transfer and skill development collaboration, aimed at creating a trained and certified construction workforce in both nations.
- Facilitation of business partnerships and joint ventures between Indian and Brazilian enterprises to jointly pursue public and private sector infrastructure opportunities.

The visit concluded on an optimistic note, with both sides agreeing to formalize cooperation mechanisms. The Brazilian delegation appreciated the efforts of CIDC, IndSTT & ICC & urged participation in the upcoming events like the 'No Dig India Show', CIDC 'Vishwakarma Awards' & 'ICC Awards'. CIDC announced plans to soon lead an Indian delegation to Brazil, which will include industry leaders, consultants, and technology providers to showcase India's proven expertise in:

- Sustainable and green construction methodologies
- Sub-surface and trenchless infrastructure technologies
- Project management, cost optimization, and engineering consultancy
- Skill development and capacity enhancement programs

This collaboration is poised to unlock substantial opportunities for ICC, IndSTT & CIDC's registered vendors, consultants, and institutional members, providing access to international projects, joint ventures, and cross-border knowledge exchange.

Through such initiatives, CIDC, ICC & IndSTT reaffirms its mission of empowering Indian enterprises and professionals to take their capabilities to the global stage, supporting international reconstruction and development programs while promoting innovation, inclusivity, and excellence in the construction industry.
